IN THE CLAIMS:

Please amend claim 1 as follows:

LISTING OF CURRENT CLAIMS

- 1. (Currently Amended) A back light module comprising a lamp case, said lamp case having a bottom wall and a top open side, a plurality of lamp tubes fixedly mounted inside said lamp case, and a diffuser board fastened to the top open side of said lamp case and suspending above said lamp tubes, wherein said diffuser board has a plurality of bottom support members formed integral with a bottom wall thereof of said diffuser board and respectively stopped at the bottom wall of said lamp case to support said diffuser board against deformation.
- 2. (Original) The back light module of claim 1, wherein said bottom support members are respectively perpendicularly extended from the bottom wall of said diffuser board.
- 3. (Original) The back light module of claim 1, wherein said bottom support members are injection-molded with said diffuser board in integrity.
- 4. (Original) The back light module of claim 1, wherein said diffuser board is made of acrylics.
